SATURDAY, OCTOBER 28, 1911.

Now the case against the Steel cor-  
poration will be tried forthwith in the  
newspapers.No, gentle reader. Yuan Shi Kai  
is not the name of a new Chinese dish.  
He is the big gun of the Chinese revolu-  
tion.What is vinegar? Is the question  
now confronting Dr. Wiley. Evidently  
it was propounded by some sour mind-  
ed individual.Perhaps, in time, Congress, or the  
courts, will work out a reasonable,  
clear rule that will govern industry  
and provide a more stable basis for  
prosperity.At any rate the estimate first form-  
ed of Dr. Cook's nerve seems to hold  
good. If he can succeed in capitaliz-  
ing it to its full enormity he should  
die a very rich man.Don't talk baby talk to children.  
advices a Detroit educator. On the  
other hand when you are discussing  
the fourth dimension with them it  
is advisable to state your arguments  
as simply and directly as possible.The worst feature of the suit  
against the Steel corporation is the  
interminable length of time it will take  
to decide the case for it will tend to  
prolong uncertainty in business. And  
inasmuch as the Steel company has  
been generally regarded as a good cor-  
poration because of its fairness and  
methods of publicity the institution of  
the suit is to be regretted.The Marquette Evening Chronicle  
has been sold to A. T. Roberts of Mar-  
quette and Jack Cremer, of Detroit,  
one of the best known newspaper men  
in Michigan. For a number of years  
Mr. Cremer has been identified with  
the Detroit Journal. He is one of the  
best political writers in the state. Mr.  
Cremer undoubtedly will make a suc-  
cess of the Chronicle, and The News  
joins other members of the upper pen-  
insula press in welcoming him to the  
fold.New York suffragists pulled off a  
boxing show last night. Gus Rudin  
and a few other "has-beens" of the  
heavyweight class indulged in the  
pleasant pastime of hammering each  
other on the jaw, solar plexus and  
other vulnerable spots, and it is stat-  
ed in the press dispatches that the  
women applauded vigorously and did  
not seem at all uneasy over bloody  
noses and welts that occasionally  
landed one of the boxers on the floor.  
Is this what woman's suffrage is com-  
ing to? Is it going to make our wom-  
en masculine and less refined? If so,  
we are not for "votes for women."An Escanaba sportsman is circulat-  
ing petitions requesting Governor Os-  
born to recommend a revision of the  
game laws, if a special session of the  
legislature is called. The game laws  
are as present more faulty than they  
have ever been before. It appears  
still it is not to be expected that Gov-  
ernor Osborn will urge that they be  
revised in a special session, comments  
the Mining Journal. If he calls the  
legislature together he will have more  
important matters to recommend to  
their attention. They can only be paid  
for twenty days' work and it is not  
likely that they will linger long after  
the pay stops the governor will doubt-  
less, ask that they confine their at-  
tention to not more than two or three  
important subjects. The only way he  
will be able to get anything accom-  
plished will be by not giving the mem-bers any excuse for wasting their en-  
ergies on a multiplicity of subjects.

## TAFT THE SAFEST MAN.

The Mining Gazette believes Presi-  
dent Taft is playing politics in start-  
ing suit to dissolve the steel corpo-  
ration, and, apparently disgusted with  
his attitude towards business interests,  
remarks:"If the Democrats put up a con-  
servative candidate he will get a  
lot of Republican votes next  
time."

But has the Gazette any conserva-

tive Democratic candidate in mind?

It certainly is not thinking of either  
Wilson or Bryan, for they are "two  
of a kind." Wilson is a "Progressive  
Democrat," and it's certain he would  
go after alleged trusts more strenuous-  
ly than the present administration  
were he elected president. It's a way  
these "Progressives" have. Mr. Bryan,  
on the other hand, is even more radical  
than either Taft or Wilson when it  
comes to "corporation baiting," for he  
would institute criminal proceedings  
as well as civil suits against officers of  
big combinations.Probably the Gazette has Gov. Har-  
mon in mind. Apparently he is con-  
servative, although he has not as yet  
made any clear exposition of his atti-  
tude towards business. But there ap-  
pears to be but a slim chance he will  
be the nominee of the Democrats. Gov.  
Wilson seems to have the pole in the  
race and it looks as if he will lead the  
Democrats to victory or defeat in the  
next campaign.For all interests of the country Taft  
is the safest man for the Republicans  
to support. He is both progressive  
and conservative and although the  
administration's fight on the Steel cor-  
poration does not meet with the approval  
of many members of the party there  
will be general agreement that the  
business upheaval could be made much  
worse with some dyed-in-the-wool  
radical in the executive chair.

## HUNTING SEASON DANGERS.

Although the hunting season in the  
upper peninsula woods is only fourteen  
days old, five persons have met their  
death and seven have been more or less  
severely wounded, due to carelessness  
either on the part of the victims them-  
selves or of others. The record seems  
to forecast a long list of dead and in-  
jured at the season's end as there re-  
main thirty-three more days in which  
to hunt deer.In commenting on the most recent  
fatality, and the dangers of the hunt-  
ing season in general, Editor New-  
comb, of the Ishpeming Iron Ore, an ex-  
perienced hunter and woodsman, says:V. H. Jenkins, of Cadillac, Mich.,  
while hunting with his son in the  
woods north, killed the boy, Monday.  
They were hunting deer. The boy cir-  
cled through the woods and the father  
shot at him thinking him a deer,  
wounding him so badly that he died  
shortly thereafter. The father attrib-  
utes his mistake to the fact that the  
boy wore a yellow jacket. That's a  
fool excuse. Deer are not yellow, and  
the father must have known how the  
boy was dressed. Under the law he  
should be sent to the penitentiary, but  
he will not be. No one is punished as  
the law directs for such criminal care-  
lessness. Of course the father is al-  
ready punished, as he will carry the  
memory of his act to the grave, but  
isn't it awful that men will make these  
mistakes? We cannot imagine a sober,  
manly man firing at anything in the for-  
est that he cannot clearly see. In this  
instance the father must have seen only  
a small patch of the boy's body, a  
small, yellow spot, he says, and he fired  
at it. Of course he hit it. They al-  
ways do.This early-season hunting is a bad  
business. Without snow on the ground  
these poor-seeing deer seekers make  
more mistakes than they would if there  
was snow as a relief for the objects.When fathers are shooting their own  
sons in these deer woods it is high  
time there was some change in the  
game laws that would lessen the pres-  
ent danger. It is an awful condition.Red coats, or yellow, or white will  
not save a man from the fire of these  
bad-sighted, nervous shooters. They  
are blind to color or to shape. They  
shoot at anything moving, at shadows  
and sounds. They have automatic ri-  
fles that will deliver six shots in two  
seconds, and with force enough to send  
a bullet through a twenty-inch tree.We think it would be well if a man  
were permitted to hunt only in the  
county in which he resided. This  
would get rid of a lot of tenderfoot fel-  
lows and a protection to the people  
and the game. Anyhow, why should  
we be paying for protecting game for  
outsiders to come in and kill?Something must be done to stop this  
slaughter of men. It is little less than  
the crime of murder.Life: "He's been accused of cheat-  
ing the government, hasn't he?""Yes, out of a paltry ten million or  
so."

"Likely to go to jail?"

"Hardly. He's president of the com-  
pany and the largest stockholder."A Language All  
Men Speak Will  
Link the World  
In Brotherhood

By Dr. L. L. ZAMENHOF, the Originator of Esperanto

IN all our international communications WE OUGHT TO USE  
A NEUTRAL LANGUAGE, one that is easily acquired by  
all and used with equal right by all.Let us speak in this neutral language to any man who  
does not care to speak to us in our own language, and the chief cause  
of NATIONAL HATREDS and every occasion for humiliating  
certain peoples will DISAPPEAR.A neutral language of this character has existed for some time.  
It serves its purpose to perfection, has already a considerable number  
of adherents and possesses a rich and rapidly increasing literature.Those who wish to discover how this language may be uniformly  
employed by ALL PEOPLES and what a great UNIFYING  
FORCE it is let them not discuss the subject from a theoretical point  
of view, but let them attend one of the annual universal Esperantist  
congresses. They will then understand what it is that humanity needs  
in order to establish a DEFINITIVE PEACE among the peoples of the  
earth.As ESPERANTISM makes progress in the world, the men of  
different peoples will meet more frequently and converse in a neutral  
speech. They will come to understand and to LIKE EACH  
OTHER BETTER. They will feel more deeply that they are of  
one heart, one mind and one ideal and have the same sufferings and  
sorrows. They will realize that all this mutual hatred of peoples is  
only a relic of barbaric times. On this neutral base, the one FUNDA-  
MENTAL BASE, will be established the harmonious and pure "hu-  
man" humanity of the future, of which the prophets of all lands and  
all ages have dreamed.POPULAR WITH  
PORTUGUESELEADER IN MONARCHIST REVOLT  
IN NORTHERN PORTUGAL IS  
FAVORITE-NEWS FROM  
GAY PAREE.Paris, Oct. 28.—Captain Henrique de  
Paiva Couceiro, the principal leader  
of the monarchist revolt in Northern  
Portugal is very popular in the Portu-  
guese army, especially among the ar-  
tillery in which branch he served. Dur-  
ing the days of the 4th and 5th of  
October, 1910, he fought heroically in  
the streets of Lisbon and was among  
the last defenders of the palace of the  
Necessidades against the Republicans.When the struggle was nearly over,  
a Minister of Manuel, Senior Texeira  
Souza, wounded by a fragment of shell,  
crossed the royalist lines on his way to  
surrender his seals of office to the pro-  
visional government."I have been wounded in my own  
house by a splinter of shell," said the  
Minister to the Captain."Serves you right," answered Couceiro,  
roughly, "your place was in the street."When the monarchist regime was  
definitely ended Couceiro was not  
molested by the Republicans. The new  
War Minister, Colonel Barreto, even  
offered him a higher grade, which at  
first he accepted, but soon gave up to  
work for the cause of the King.One day before a group of soldiers,  
the Captain had a lively altercation  
with Colonel Barreto."Who are you for?" questioned Couceiro,  
abruptly, turning to the men.  
"For the King or the Republic?""No, for you, Captain," they answered  
without hesitation.

## Styles in Complexion Change.

The complexion of the Paris woman  
has changed this season. Last winter  
the prevailing mode was white with red  
tint. This autumn the out-of-door  
tint, with a touch of dusky red in the  
cheeks has become the fashion. The  
leading hairdressers supply glistening  
eyes for the evening by four drops of  
a chemical formula.The dressmaker of the Rue de la  
Paix complains that this has been a  
hard season for them because of the  
sharp enforcement of American cus-  
toms regulations. An American who  
formerly bought several costumes nowtakes one, just to have something from  
Paris.

## Paris-Madrid Telephone.

After several months' trials the  
French State telephone engineers have  
succeeded in connecting Paris and Ma-  
drid, and the service will be soon open-  
ed to the public. The establishment  
of oral communication over such a dis-  
tance—990 miles—is only one of a  
number of reforms which are being in-  
stituted, the central battery among  
them, at first condemned by the Post-  
office Telephone authorities but now  
regarded as essential by everybody.The switchboard at the principal ex-  
change is being remodeled on the  
American plan, until the automatic ex-  
change, now under trial at Lyons, shall  
be adopted for the whole system. The  
automatic exchange will do away with  
the "telephone girl," who is much  
slower and less courteous in France  
than in America.
